TRUNK ORGANIZER KIT

For food and beverages

BALTIMORE, MD—This portable insulated Trunk Organizer Kit is a temperature regulated unit to accommodate food and beverages. It provides a unique storage unit for food and beverages in a variety of venues such as tailgate parties, backyard barbecues, beach areas, camp grounds, sporting events, boating and fishing. The Trunk Organizer Kit with the thermostat control also keeps medicines for people with diabetics or other daily medication.

The patent pending Trunk Organizer Kit was invented by Gloss M. of Baltimore, MD, who said, “Whether it’s an overnight camping trip to the mountains or seacoast, a Saturday afternoon’s tailgating and football game, a family picnic in the city park, or a weekend on the lake with sail or motor, there are plenty of situations in which the Trunk Organizer Kit serves as a convenient cooler or freezer for outdoor enthusiasts.”
